Brighten Up

"Brighten Up" time is here—the time to clean up about the house, renovate, and make the old things look neat and clean again. We can help you in the work with our line of **SHERWIN-WILLIAMS PAINTS AND VARNISHES.**

It is really surprising what a little paint or varnish will do toward brightening up dingy surroundings. Take *The S-W. Family Paint*, for instance. This is a linseed oil paint specially prepared for home decorating and painting. With it any one can renew the appearance of faded little things that now look worn and old. It dries with a good gloss and will stand scrubbing with soap and water. Comes in 26 attractive shades.

The S-W. Floorlac is another splendid household brightener. It is a stain and varnish combined and can be used on old or new woods equally well. Imitates the natural woods and gives a most pleasing effect.

These offer a few hints for you. Come in and have a "Brighten Up" talk with us and learn more about how we can help you in your Fall cleaning. Our line has a paint or varnish for every purpose.

Remember, we sell

THE SHERWIN-WILLIAMS PRODUCTS FARMERS UNION BRANCH

In announcing our purchase of Joe Gard's Jersey cows and milk route we wish to say that with the addition to our herd of these rich milkers we are prepared to give our customers milk that cannot be equaled in purity or butter fat content.

Why not get the best? It costs no more; a trial costs nothing. Call us up,—or better, come over and see us, inspect our herd and method of handling the milk—then a trial bottle and we'll all be better satisfied.

Nerve Energy Wasted

Eyestrain is an extra amount of nerve force applied to the eye muscles, which regulate the focusing power of the eyes, to enable them to overcome as much of the defect as possible to give vision. Eyestrain is nerve drain which means overtaxation of the entire nervous system. Don't neglect your eyes and jeopardize your general health, but come to me and get glasses that will stop the cause of this waste of nerve energy. At Dr. Merrill's Office, Monday, June 7.

Local and Personal

"The Quality Shop" that's us, KING'S. Nic Dunphy is at home for a short visit with his parents.

J. E. Palmer is enjoying a two week's vacation from Uncle Sam's job in San Jose.

Mrs. L. F. Shaw was a recent visitor at the Fair, stopping at the Inside Inn for the time.

The W. W. Stewart family went to Pacific Grove, Saturday, returning Tuesday evening.

Miss Muriel Palmer returned home Tuesday from a successful term of school at Concord.

R. A. Holmes has moved to the Nattinger ranch on Leigh avenue where he has leased the drying plant for the season.

Mrs. Beebe is recovering from a serious illness. She enjoyed a week-end visit with her son, who came down from San Francisco.

Miss Josephine Vandergon came down from San Francisco Tuesday for a day with her parents, Mr. and Mrs. J. J. Vandergon.

Mrs. Fred Baldwin and Miss Dodge of Edgerton, Minn., will arrive today on a visit with J. M. Butts and sons, and friends, in San Jose.

J. D. Sawyer went to Modesto, Tuesday, where he will remain for a time looking after his recently acquired ranch property near that city.

Mrs. Roy Thompson came up from Los Angeles Sunday and expects to spend a couple of months with her mother, Mrs. Flora Crow.

Messrs. and Mesdames E. C. Merrill and G. C. Bradford spent the week-end sight-seeing at the Jewel City, motoring up in Mr. Bradford's car.

Mr. and Mrs. E. E. Lanphear spent Sunday and Monday at the Jewel City. Mr. Lanphear is enjoying a two week's vacation from duty at Blaine's.

Mr. and Mrs. J. K. Hinde and son, Marion, left Tuesday for their home at Columbus, Ga., after a three week's visit with Mr. Hinde's parents.

A most enjoyable evening was passed at the C. P. Herrington home last Friday when a "hard times party" dressed to suit the "times" gathered for one of their jollifications.

Mr. and Mrs. Ludwig returned Tuesday evening from a week's visit at the Fair. They arrived just in time for Mrs. Ludwig to help care for her mother, Mrs. Laura, who is threatened with an attack of pneumonia.

Mrs. Eliza Cross May of Berkeley, a former grammar school pupil and also Sunday-school scholar of Mr. Fablinger's, whom he had not met for twenty years, visited for a short time the past week at the Fablinger home.

Jas. Burns and T. A. Robinson and children, Willie and Eva, went to Gilroy Sunday and visited Mr. Burn's children at the I. O. O. F. children's home. The children are doing nicely and were surely glad to see their father and friends.

Miss Grace Bohnett has received an appointment to one of the prominent positions in the Southern Pacific hospital at San Francisco. Miss Bohnett was visiting friends at San Francisco when she received the good word and sent home for her trunk at once.

The annual reception given by the Juniors to the Seniors of the High School will be held at the beautiful home of Mr. and Mrs. E. I. Price on the Dry Creek road Saturday evening, June 12. The evening will be spent in games following a program. The reception is invitational.

Mr. and Mrs. J. H. Reed of Columbia, O., arrived last week as guests of Mr. and Mrs. J. C. Ainsley. They have visited the expositions at San Diego and San Francisco coming via the southern route. On their return they will go via Portland, Seattle and the Canadian scenic route.

Gophers To Picnic

The annual picnic of the Santa Clara County Minnesota Association will be held at Congress Springs, Saturday, June 5.

The executive and other committee's met at the home of the secretary, Miss Mary Lewis, Monday afternoon, those present being Mrs. W. T. Alexander, Miss Lewis, Messrs. M. E. Purmort, H. C. Smith and W. B. Denhart.

The plan is to have a barbecue at Congress Springs, Saturday, to which all former Minnesota residents are cordially invited. Association members are reminded of their dues. A fare of 25 cents round trip from Campbell on the electric line if 15 or more go on the one car, will be charged. Tickets good to return on any car. Those wishing to go on the car please register at the Press office to get the benefit of the rate.

Alumni Re-reunion

The annual alumni reception of the Campbell Union High School will be held this evening, in the I. O. O. F. hall at Campbell. The Class of 1914 have charge of the event and are planning to make it the greatest of its kind, the Class of 1915 being the honored guests.

After a short program by members of the alumni the evening will be spent in reviewing old times and dancing.

The program as arranged follows: Welcome Address, Frank Stepka, president of the Alumni Association; piano solo, Mrs. Avenel Ross of Palo Alto; vocal solo, Edward Vocco of Los Gatos; address, L. D. Bohnett of San Jose; violin solo, W. C. Bohnett of Campbell; vocal solo, Miss Ruth Hoag of Campbell; reading, Miss Juliette Billiou of San Francisco; vocal solo, Miss Charlotte Davis of Campbell; address, George L. Beaver of Palo Alto; skit, V. Vaudine Putnam of Campbell.

Each member of the Alumni, faculty and Class of '15 has the privilege of bringing a friend. Those wishing more than one can do so by making arrangements with Marie Bohman or Dan Yeager.

Enjoyed Fine Trip

The S. G. Rodeck family returned from Arosa Friday making the trip of 195 miles in just nine hours running time. They enjoyed fine weather and made the trip a sort of picnic outing. At Arosa they met Mr. and Mrs. C. H. Antrim who came to Campbell with them for a day. In all the trip of over 600 miles the machine gave no trouble, not even a puncture to mar their enjoyment.

Mr. Rodeck stated that the improvement in that part of the state is remarkable. On one ranch visited Mr. Rodeck got a picture of the crew picking tomatoes which were bringing the rancher 15c per pound. Most of the country is being planted to oranges. They have no frost there and tomato vines grow the year round.

Mr. and Mrs. Antrim left for Los Angeles by auto Sunday making over 200 miles that day.

Meeting Well Attended

Tuesday's meeting of the Home and School Club was a red letter day for attendance, the great attraction being the Maypole drill which is described in another article.

Lucile Alison, Clara Schwarz, Ruby Reynolds and Millie Dowton sang a very pointed song, "Oh, dear, what can the matter be, parents don't visit the school."

Miss Marion Duncan and H. C. Smith sang a duet, Miss Charlotte Davis a very pretty solo and Mrs. Gard and Wilma Smith played a duet.

At the business meeting the following officers were elected, Mrs. J. D. Blaine, president; Mrs. Andrew Johnson, vice-president; Mrs. D. H. Cramer, secretary; and Mrs. A. E. Bargas, treasurer.

The club extends its thanks for the very generous collection, \$5.20, which will be used next year in some way for the benefit of the school.

The 8th grade won the picture "for keeps" by a fraction of about 1-24.

Congregational Church

"The Friendly Church just around the Corner."

Children's Day!

Just as "In the month of May, comes Mother's Day," so the month of June is "Sacred to Children's Day" in the land. Our Annual Children's Day will be next Sunday morning at 10:30. Sunday-school and Morning Service being combined for the beautiful service. We will have the third in the Building series; having had "Building of the Ship," "Building of the Ladder of Life," so this year "Building of the Wall of Character." Many other delightful parts. "The Golden Gate of the faithful." Christening of the babies: Presenting Anniversary Bibles to those seven years old: Illustrated Talk by the Pastor: Exercises by the Primary Department, etc. This service is at 10:30 remember.

C. E. as usual.

For the evening the Pastor is arranging for one of our delightful Stereopticon Services. He has sent for "Through Turkey and Kurdistan." The slides are beautifully colored and clear. Come and see some of the places of the present War. If you go nowhere else, you are invited to come and worship with us and enjoy these services.

GEO. E. ATKINSON, Pastor.

Miss Marie Vandergon went to Morgan Hill Wednesday to spend a few days with her sister, Mrs. Bearce.

Mrs. W. B. Lambert who has been visiting her sister, Mrs. A. A. Purmort, left yesterday for her home in Seattle.

TOLD OF VON HINDENBURG

Many Anecdotes Concerning Famous German Strategist Are Being Put in Circulation.

Of the telling of anecdotes about the doughty Field Marshal von Hindenburg there is no end just now in Germany. So huge is the fame won by the victor of Tannenberg, Lodz, and the Masurian lakes that anybody who knows anything whatever about him, important or unimportant, is hurrying to have it printed in the German papers for the delectation of Hindenburg devotees.

Some of the things unearthed must be distinctly embarrassing to the grim old war dog. For instance, one newspaper has discovered a poem dating from 1886, written in the visitor's book of the castle of Kynast in Silesia, which is declared to be the work of him who is now the idol of Germany. The poem deals with the writer's thoughts as he looked out from the tower of the castle over the landscape spread below. As might be expected, Hindenburg saw in that landscape a possible battlefield, and wrote to that effect. Perusal of the verses leaves the impression that he is better at fighting battles than writing about them.

The field marshal's sister has also raked up from his past a poem. This one consists of exactly three lines, and is of a waggish nature. His sister had made a sketch of him on the anniversary of the battle of Sedan, showing him comfortably installed at his Prussian home, and her brother wrote under it the three line poem, which humorously contrasts the excitement of the day on which he took part in that memorable battle with his peaceful laziness on the anniversary.

Here is another Hindenburg anecdote recounted by his sister:

After the battle of Tannenberg last August, when Hindenburg annihilated a Russian army opposed to him, he went to church in a small village near the battlefield. When the services were over, hundreds of the villagers crowded about his automobile, shouting their thanks to him for delivering them from the Russian invaders. But the victor cut short their demonstrations by pointing brusquely upward with his hand and saying:

"Give thanks to him up there."

Then he signaled to the chauffeur to speed away.

Another Shark Story.

Passengers arriving at New York by the transatlantic liners bring strange stories, not all of which are based on the war. Some time ago a shark was swimming along in the wake of a ship catching all the refuse thrown overboard. One of the sailors, who had a well-founded antipathy for all sharks, determined to try a new method of scaring the shark away. With this end in view he procured an alarm clock, which he carefully wound and set to go off in 20 minutes. Then the sailor tied the clock to a rope and dropped it overboard. The shark instantly swallowed it. When the alarm went off he was truly scared. The shark manifested this in various ways. He first stood on his hind legs and turned somersaults. The big fish finally took refuge in flight, meanwhile lashing the water furiously with his tail. The other day this same shark was captured by the same ship. When the monster was drawn on deck by the triumphant crew it was discovered that he was the one who had swallowed the clock. When he was cut open the alarm went off again.

Canner and Commissariat.

The unique position of the United States as regards foodstuffs has just been emphasized at a canners' convention in Chicago. Famine is impossible in this country, and more than that, at no season of the year are its inhabitants cut off from all the good things nature provides for man's sustenance. A wonderful range of climate makes it possible to have the year around green vegetables and fruits grown in the open, and at prices in reach of the humblest pocketbook. This is supplemented by the art of the canner, who successfully preserves the summer's surplus bounty against the cold, gray days of winter and robs that season of any terror it might ever have held, so far as food is concerned.

It is not alone famine that is avoided, but certain diseases once prevalent, due to malnutrition incident to a lack of proper food, have vanished from the United States. In this way the processes of preserving foods have also been useful in the matter of preservation of health.

The Point of View.

Alice—I hear that the new quarterback on your college team is quite homely.

Dick—Oh, he'll pass in a crowd; that's all we care.

A Comedy Compilation.

Doctor—There seems to be a great deal of humor in this hurt on your elbow.

Patient—I guess that's because it's my funny bone.

Disparagement.

"You think that man has more money than brains?"

"Yes," replied Miss Cayenne; "and I don't believe he has much money, at that."

In Historic York

WITH the breaking out of the great war the city of York, England, true to its ancient traditions, once more became an armed camp, for many of Great Britain's soldiers were sent there for training, and modern troops have drilled and marched where Carlismundia ruled over an ancient British camp in the time of the Druids, where the Romans held sway and where Danes and Saxons fought.

Writing of York in Country Life, Col. R. F. Meysey-Thompson says:

Despite the never-ending destruction of old buildings—frequently made away with by those who ought to know better, but, having no reverence themselves for ancient associations or any love for the beautiful, who cannot be made to understand what an invaluable asset York possesses in her ancient picturesque gables and quaint buildings so in keeping with her past—the city is still rich in many glorious antiquities. The Minster, of course, stands easily first (it is absolutely true that when a very distinguished German general was being shown round York not many months before the war began, the only enthusiastic remark he made was "that the Minster would afford such a splendid mark for artillery from anywhere around") both from its perfect design and workmanship and from the wealth of treasures it possesses, especially in the beautiful glass in its windows. It is, however, well supported by numerous examples, any one of which would make most towns famous, and attract visitors from far and near.

City Walls and Their Bars.

There are the city walls, for instance, with their famous bars. All of the bars formerly had barbed and portcullis, but the exigencies of "trade" have demanded the abolition of all of the former except the one at Walmgate, and there are even super-vandals who have essayed to have this one removed also! Monk bar still retains its portcullis, and when last year it was lowered for the first time for

sacre of the Jews. The ancient royal palace, now occupied as a school for the blind, takes one back with its courts and alleys to the stormy period of the Tudors and Stuarts. Inside the museum grounds can be studied the splendid ruins of St. Mary's abbey, while the patched up state of the round tower at the top of Marygate tells eloquently of the siege when it was blown up with gunpowder.

There is more than one pair of stocks still to be seen in York, notably in the churchyard of Holy Trinity church, Micklegate; and at either end of the city, at the end of Burton lane and opposite the infantry barracks at Fulford, are two "plague stones," which recall to mind those terrible visitations of the Middle Ages. At the stones the country people used to deposit their wares, and then retire a short distance until the townsfolk had advanced and, taking up their purchases, had deposited the money for the same in water, when, in their turn, the vendors advanced and picked out the coins. In this manner the two parties never came in contact with each other.

In the infantry barracks a grand old tree keeps alive the memory of Dick Turpin, having been planted, it is said, over the grave of Black Bess. Mention must finally be made of the race-course on Knavesmire, now handed over for the nonce to the training and housing of the troops, but where the famous little Gimmerack once ran, also Blacklock, the founder of a mighty family; and where, above all, was run the famous race between the Flying Dutchman and Voltigeur, a struggle whose fame will last as long as racing exists.

Honored by Kings.

In the old days royal visits were frequent to York. King Richard II was an especially gracious patron of the old city, and it was he who bestowed the title of lord mayor upon its chief citizen. According to Drake, King Richard took his sword from his side and gave it to be worn before William de Selby, as first lord mayor, on

MICKLEGATE BAR

PHOTO BY E. W. RICHARD

many years for cleaning purposes, it proved such an attraction that hopes were entertained that it might be frequently lowered when the requirements of traffic permitted.

Micklegate bar has the weird notoriety that belongs of necessity to the spot commonly selected for the display of the gory heads of the flower of the nobility, which had been cut off by the headsman to allay the fears of a king, or to appease the rancor of rivals. Hard by the Minster is the renowned treasurer's house, once the abode of the chosen representative of the king to govern the North. To the skill and enterprise of Mr. Frank Green England owes a debt for having rescued this splendid specimen of medieval architecture from the degraded state into which it had fallen, and for restoring it again to a near approach to its former glory. To the same gentleman's patriotism also we must render most grateful thanks for having rescued St. William's college from the fate which threatened it, and saved to posterity one of the most interesting and picturesque buildings in the city. It was here that the royal master printer, Mr. Robert Baker, set up his printing press during King Charles' sojourn in the city, where many of the proclamations and messages to his recalcitrant parliament were printed.

Some of the Antiquities.

Clifford's tower is a charm in itself, despite the sinister memories which cling to it regarding the mas-

the occasion of his visit in 1388. And in 1396 the king confirmed to the citizens and their successors forever that "the mayor of the said city and his successors for the time being may have carried, or may cause to be carried, before them their sword which we gave them, or any other sword they please, out of the presence of us and our heirs, with the point erect, both in the presence of other magnates and lords of our kingdom of England." That sword is, unfortunately, no longer among the city treasures, having disappeared towards the close of the eighteenth century.

One of the most valuable pieces of plate belonging to the city is a loving cup of pure gold a goblet 9 3/4 inches in height, the gift of an alderman, Marmaduke Rawdon, in 1672.

Contents of Shark's Stomach.

I have received from W. F. Cameron of Zamboanga, P. I., a Stanford engineer, a photograph of a rare shark, rhinodon typicus, a specimen about twenty feet long, taken on the Island of Cebu. A notable feature about this shark, which has a very big mouth and small teeth, is that it had in its stomach seven leggings, forty-seven buttons, three leather belts and nine shoes. He had probably captured the cast-off garments of some company, otherwise the question arises: What became of the odd legging and the odd shoe?—David Starr Jordan in Science.

LEARNED FROM EGG

How Scientists Got Notion of Gyroscope.

Lord Kelvin Frequently Used It in Lectures to His Classes, and Professor Grey Has Added Interesting Comment.

If you place a hard-boiled egg on its side on a smooth table and give it a spin it rises on one end and rotates on its tip. A raw or soft-boiled egg will not do this.

This habit of hard-boiled eggs was a favorite illustration used by Lord Kelvin in demonstrating gyrostatic motion before his classes at Glasgow university. In a recent lecture before the Institution of Electrical Engineers Prof. A. Gray repeated the experiment with the following comment:

"The first experiment made was always that of the equilibrium of this nearly egg-shaped piece of wood, which, scientifically described, is a homogeneous prolate ellipsoid of revolution. Its surface may be imagined to be generated by the revolution of an ellipse about its longer axis. I lay it on its side and we see that in that position it is stable for fore and aft inclinations, 'pitching.' I may call the

The Spinning Egg That Illustrates Gyrostatic Action.

motion, and in indifferent equilibrium for port or starboard displacement, or rolling. This is, of course, all without spin.

"If, however, I apply to the solid, as it lies on the tray before me, an impulsive twist with my fingers, so as to make it rotate about one of the minimum diameters (that is, of course, a diameter about which the moment of inertia is a maximum), the solid shows that when spin is applied the equilibrium is unstable. The ellipsoid at once sets itself on one end, and then rotates in stable equilibrium with the long axis nearly vertical. This is a remarkable result. The center of gravity has been raised, and the equilibrium is now stable. The spin has altered the conditions of equilibrium completely.

"Of course, it was pointed out to us that all these phenomena are well shown by the ordinary spinning-top, spun by the unwinding from it of a string when the top has been skillfully thrown from the hand. The swaying round of the axis of a top when rising just after spin to the 'sleeping' position, and the similar conical motion of the axis when the top is about to fall, give examples of precessional motion of, in fact, the astronomical phenomena called procession of the equinoxes."

A raw egg will not rise to spin on end because of the unstable condition of its contents. These, being liquid, are agitated by the spinning motion and a series of whirlpool-like motions is set up in them; these produce such a confusion of forces that any slight gyrostatic effect is stopped.

India's Rice Crop.

The rice crop of India for the current season, according to the second general memorandum shows a total area of 75,000,000 acres under the crop, being only a hundred thousand acres short of last year. Weather conditions in Bengal, Behar and Orissa, Assam and United Provinces have not been favorable since September, however, and the outturn of winter rice, in consequence, is somewhat shorter than these figures indicate, especially in Behar and Orissa, where it is estimated at only 75 per cent of normal. As regards extra-Indian areas the information is that, in Egypt conditions are favorable, in Japan the crop is 12 per cent above normal, while in Korea, Italy and the United States but slight variations, compared with last year, are expected.

Japanese Potato King.

Reading a story of the visit of George Shima, the potato king of Lodi, Cal., to Los Angeles, in a paper of that city, merchants of Lodi recall that not many years ago the Japanese capitalist could not obtain credit in the stores of this city, not because he was not honest, but as a newcomer he had not established credit.

Those business men who refused to trust did not anticipate that in a few years Shima would control 37,000 acres in California and have 6,000 acres in his own holdings, and have established a large credit in California banks.

Last July Shima owned about a quarter of the 4,000,000 sacks of potatoes in California, and today he owns half of the 500,000 sacks unsold in the state.

As to Jarley.

"That man Jarley is without any exception the most inaccurate man I ever knew," said Dobson. "Tell me, Jones, does he ever get anything right?"

"Oh, yes," replied Jones. "Anything that is left Jarley will always get right."—Judge.

FOUND THE MISSING BROOCH

Loser of Jewel Went to Work in Her Own Way, and It Turned Out Splendidly.

Detective work, following faint clues, dark hints and the like, is not the only method by which robberies may be solved. The wife of a prominent officer in the marine corps, who resides in Baltimore and has a country place in Virginia, is authority for the statement, and offers the following little story in proof of her contention.

It seems that while she was at her Virginia place, she one day missed from her jewel box a valuable diamond brooch. She had the servants search high and low for the trinket, but it could not be found. All of her servants except one had been with her for years, and were absolutely trusted by her. The one exception, a mulatto girl, persistently urged upon her mistress the possibility of the brooch being at her Baltimore town house.

"Tain't around heah, Mis' Alice" (not the real name of the mistress, of course). "I know dat it ain't around heah," persisted the girl.

Whatever suspicions the mistress may have had she kept to herself. After a while she returned to Baltimore, bringing her servants with her. "Is you found it, Mis' Alice?" asked the mulatto girl, after a search of the house had been concluded.

Her mistress shook her head. "No," said she, "I have not found it, Mary, but," lowering her voice and speaking impressively, "I have no cause to worry."

"Ain't you?" inquired the girl.

"No," continued her mistress. "You see, I went to a fortune teller today. She told me that whoever had the diamond would die shortly, and that the brooch would be found among their effects. I only have to wait for their death to know who took my brooch."

"Mah gracious!" breathed the mulatto girl. "Did dat voodoo woman say dat?"

"She did," replied her mistress, solemnly. The mulatto girl precipitantly departed, and, strangely enough, her mistress found the missing brooch that very night pinned to one of her gowns.

Pay Day in the Trenches.

The pay department of the British army now employs nearly 700 officers and about 7,000 clerks. This is nearly ten times as many people as were required for the work in times of peace. The housing of the constantly growing staff of the paymaster's office was one of the first difficulties, and the London main office has moved twice since the war begun. Lately it has taken to adding private houses to its office area. Much of the time since the first of August the whole army pay organization has worked day and night.

The soldier receives his pay, if he wishes it, not only at the front, but even in the trenches. The cash, in French currency notes, is issued by his company officer in the field, and is accounted for on the so-called "acquittance rolls." Every soldier carries his paybook right through the war. As far as possible he is paid weekly. Men in the advanced trenches draw their pay almost as if they were in the barracks at home.

"C'était Le Roi!"

The mere exhibition of himself to the men in the trenches is not enough for King Albert of Belgium. He fights as his men fight, and he moves about among them without the brilliantly uniformed staff or bodyguard that traditionally surrounds the king.

Here is a story, ringing with the clear note of imperishable romance; it is told by a Belgian soldier in the Nieuwe Rotterdammer Courant:

"I was in the trench, and my brother-in-law was some yards from me. Between us there was a tall officer without arms, and silent. Suddenly a shell burst near us. My brother-in-law was struck by a splinter, and fell in a heap at my side. The tall officer took up the rifle and continued the shooting. Then he slowly left the trench. His extraordinary calm struck me. I ceased to fire and turned to him. He also turned to me. . . . Mon Dieu! 'C'était le Roi!' (It was the king.)—Youth's Companion.

Riley's "Lost" Works.

The search for the "lost" works of James Whitcomb Riley, which has been carried on for almost a year in connection with the preparation of the first complete collection of his works in prose and poetry, has brought to light a great mass of material of which little or nothing was previously known. More than two hundred hitherto unpublished poems were discovered. One of the most typical of the Hoosier poet's works dating back to the earlier days of his career is an illuminated manuscript of a poem entitled "Man's Devotion." Another interesting find was a baby book containing pictures of the child friends of the poet. He wrote a poem to each of the little portraits.

Asleep Indeed.

From the French trenches in Alsace comes a tale of a soldier who awoke one morning after a sound sleep, complained of a cramp in his thigh, and said that he could not get up. At first his superiors insisted that he do so, but as he steadfastly refused, they sent for a doctor. The latter found that a bullet had come through the roof of the soldier's shelter during the night and had lodged in his thigh. It had not even waked him up!

DANUBE IN HISTORY

River Has Always Been Great Highway of Commerce.

Dardanelles Has Ever Been Looked Upon as the Real Mouth of the Great Waterway of Eastern Europe, With Reason.

Probably most Americans know more about the Danube as the subject of a popular waltz than as a historic highway of commerce and a strategic frontier. Perhaps some of our readers were astonished to learn that the allied fleets are blocking the mouth of the Danube by forcing the Dardanelles. They know that the Danube empties into the Black Sea and cannot understand the statement. Technically, they are correct, but the Philadelphia Inquirer says, from time immemorial the Dardanelles has looked upon as the real mouth of the great river of eastern Europe, and the best of reasons.

In his will Caesar Augustus pressed a wish that Roman conquest should never proceed north of Danube. He had succeeded in making that river a strategic frontier, adding a chain of forts which extended to the Swiss Alps. Behind this barrier were unknown hordes of savage barbarians who were certain at any time by economic pressure or restless spirit to assault the interior of the empire, and Augustus foresaw that any extension beyond this frontier would be dangerous. Unhappily his advice was not accepted, although the reasons for a forward movement seemed excellent at the time. The imperial legions crossed the Danube, and the name Rumania remains as a relic of their forward movement. It proved a fatal mistake, for pretty soon the Danube became the danger spot of the empire and the seat of the government was transferred to Byzantium, the modern Constantinople. Gradually the Roman empire divided and fell under the oncoming rush of Goths, but the struggle along the Danube has continued to this day. Hun and Turk entered Europe along this great highway and were with difficulty turned back at Vienna. Since that time the Balkan question, with its control of the great river, has been dominant in European politics, and never was more important than today.

TO FOIL THE PICKPOCKET

Barbed Guard Is an Old Device, but It Is Guaranteed to Hold the Watch Secure.

Though patented so long ago that the patent has run out, the device for holding a watch secure from pickpockets, which is illustrated herewith, is so ingenious and so little known that it deserves to have attention called to it. It consists of a little acorn-shaped bulb between the hasp and the ring to which the chain is attached, and in this bulb three slender, sharp spikes that protrude the instant the chain is pulled. The spikes stick into the lining of the pocket, from which the watch cannot possibly be pulled. As soon as the pull is released the

A, the Watch as it Rests in the Pocket. B, the Same When the Chain Is Pulled.

spikes drop back into tiny holes. The owner of the watch has to take hold of its ring and not of its chain when he wants to take it out.

Would Leave Bullet in Body.

"The mere presence of a bullet inside the body will of itself do no harm at all. The old idea that it will cause infection died long ago. . . . We now know that, provided they are clean, we can introduce steel plates, silver wires, silver nets, into the body without causing any trouble at all, and a bullet is no worse than any of these. It is a matter in which the public are very largely to blame, for they consider that unless the bullet has been removed the surgeon has not done his job. Unless he has some specific reason for it, I know that the surgeon who removes a bullet does not know his work."

"It may be the mark of a Scottish ancestry, but if ever I get a bullet in my own anatomy, I shall keep it."—"A Surgeon in Belgium," by H. S. Souttar, F. R. C. S.

E Pluribus Unum.

Dribble—Hello, old boy! What are you doing now?

Scribble—Writing for the magazines.

Dribble—Don't you find it rather

thankless sort of work?

Scribble—On the contrary, nearly everything I write is returned with thanks.

The Ancients.

Laws in the world have been changed to the Babylonian university as a result of the laws of the reign of the ancients. The laws of the ancients are engraved on a tablet of stone and are of interest to know that this code contains many of the thoughts incorporated in the Mosaic law, as revealed in the book of Exodus, especially in the twentieth and twenty-first chapters, although according to archaeological proofs, it must have preceded Moses by more than two centuries.

A complete translation of this old code is now being made, and will be published under the auspices of the Yale Alumni association.

Soldiers' Queer Biscuits.

The Indian and Australian can make their own army biscuits; the former is a "chupatty," the latter "damper." A chupatty results from the mixing into a stiff paste by an Indian of flour, salt and water, and baking it on a metal dish over a hot fire. But the Indian cook seems a necessary ingredient to make it tasty as well as nutritious.

Damper needs flour, baking powder, water and wood. A hole in the ground is the oven. Fill it with wood, and while that is burning make your dough. Then lay it on a large stone, cover it with a tin, and cover the tin with the hot wood ashes, and the result will be damper.

Dr. Pierce's Pleasant Pellets regulate and invigorate the stomach, liver and bowels. Sugar-coated, tiny granules. Easy to take as candy.—Adv.

Another Old Saw Broken.

Grubs—"Every man is the master of his own destiny. He can be what he desires to be." Stubbs—"Not in every case. Take, for example, the inmate of the penitentiary who desires to be an aeronaut."

MRS. LYON'S AGES AND PAINS

Have All Gone Since Taking Lydia E. Pinkham's Vegetable Compound.

Terre Hill, Pa.—"Kindly permit me to give you my testimonial in favor of Lydia E. Pinkham's Vegetable Compound. When I first began taking it I was suffering from female troubles for some time and had almost all kinds of aches—pains in lower part of back and in sides, and pressing down pains. I could not sleep and had no appetite. Since I have taken Lydia E. Pinkham's Vegetable Compound the aches and pains are all gone and I feel like a new woman. I cannot praise your medicine too highly."—Mrs. AUGUSTUS LYON, Terre Hill, Pa.

It is true that nature and a woman's work has produced the grandest remedy for woman's ills that the world has ever known. From the roots and herbs of the field, Lydia E. Pinkham, forty years ago, gave to womankind a remedy for their peculiar ills which has proved more efficacious than any other combination of drugs ever compounded, and today Lydia E. Pinkham's Vegetable Compound is recognized from coast to coast as the standard remedy for woman's ills.

In the Pinkham Laboratory at Lynn, Mass., are files containing hundreds of thousands of letters from women seeking health—many of them openly state over their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound; and in some cases that it has saved them from surgical operations.

MARRYING ROYALTY

So Carl Said When He Wedded the Queen of Cooks.

Mrs. Bliss came into the day nursery, her large rosy face growing a deeper pink with the exertion of climbing the stairs to the third floor.

"Good morning, Miss Newton," she smiled at the little nursery governess who was sitting with Bobby in the window seat. "I wonder if you and Bobby wouldn't like to play today? We are going to picnic at the pine grove and—"

"Oh, mother-honey!" Bobby flung his sturdy self at his parent. "Will there be lemonade and chicken sandwiches? And can I wear my new white Tommy Tucker suit?"

"Yes, to everything," laughed Mrs. Bliss, kissing him and moving toward the door. "Can you be ready in 15 minutes, Miss Newton?"

"Of course we can, Mrs. Bliss! We wouldn't miss a picnic for the world, would we, Bobby?" She jumped up and put away books and toys. "Come, child!"

They danced down the corridor to Bobby's room where nurse quickly put him into the much-admired suit. In the meantime Beth Newton brushed her red-brown hair and slipped into a dainty pale blue gingham frock, then the girl and the little boy went sedately downstairs to the front veranda where three motor cars were waiting for the merry house party that had filled the Bliss country home for ten days.

Some of the girls and women came up and spoke to Bobby and nodded kindly to the little governess; one of them, Miss Nugent, tall, graceful, and carefully kind in her manner, introduced Beth right and left, until presently the girl found herself in timid conversation with Mr. Carl Bellew, so many times a millionaire that no one troubled to remember exactly how many dollars there were and only recalled that he was just as nice as if he didn't have a penny.

At last they were off, Beth and Bobby tucked away in the tonneau of the last car with Mr. and Mrs. Mitchell, the footman and the lunch baskets which overflowed on to the running boards and the luggage carriers.

"This is jolly!" cried Bobby enthusiastically as they swept out of the driveway and turned up the road that led to the Pine Mountain.

Beth smiled absently. Perhaps she was thinking that it might have been pleasanter if she had been in one of the other large cars among that merry crowd of girls and young men. But she chided herself sharply for the momentary discontent and was soon her own accustomed happy self, enjoying the unexpected holiday to the utmost.

At the pine grove the picnic hampers were unloaded; James, the footman, built a fire and was then allowed to return home with the machines. They were to come for the picnickers at sundown. "One can't have a jolly picnic with servants around," Mrs. Bliss had decided.

Leaving the fire to take care of itself the party trooped through the pines to the glade where a waterfall tumbled among the brown rocks. An acrid smell of burning brought them running to the campfire.

The fire had overleapt the boundaries of its encircling stones and had licked its way among the pine needles until it reached the four large hampers.

There was nothing left of the food save blackened remnants, and of the hampers there remained only charred splinters. As the picnickers reached the scene the last soda water bottle exploded with a sickening report.

"Seven miles from anywhere!" groaned Mrs. Bliss.

"And not a thing to eat!" added Mitchell blankly.

"Or to drink," mourned Mr. Mitchell as he grubbed among the ruins of the hampers.

There was a murmur of discontent among the young people. Some of the men volunteered to walk back to the house and bring something to eat but the question was quickly decided when a few heavy drops of rain fell.

"Where is the nearest shelter?" asked Carl Bellew.

"It must be old Ned Blake's shanty," replied Mrs. Bliss. "At least it will keep us dry for awhile. Come, everybody!"

Someone laughed a spirit of adventure into the party and so they hastened down the slope until under the shoulder of the mountain they reached a long, weather-beaten shanty built against a great rock that formed its rear wall.

Ned Blake was a hermit who gained a living by gathering herbs and berries in season.

Repeated knocks upon the door brought no response. "The latch-string is out," suggested Beth Newton.

Carl Bellew pulled the latch-string and pushed open the weather-beaten door. The poor furnishings were spotlessly clean and neat but the hermit was absent.

"We must find something to eat and we can pay Ned when he returns," said Mrs. Bliss as she sank down in a cushioned Boston rocker, while the young people found seats on the rag-carpeted floor before the open fireplace.

Soon Carl Bellew had a fire of hickory logs blazing on the hearth while Lillian Nugent and Beth New-

ton explored the pantry. Miss Nugent returned to the living room. "There isn't a bit of cooked food in the place—not even bread!" she announced. "There are flour and sugar and eggs and potatoes and some canned things—what can we do? Do any of you girls know how to cook eggs?"

Miss Taylor confessed that she had made creamed eggs in a chafing dish at home—but she shrugged her shoulders.

The other women were silent. Beth Newton stood in the kitchen doorway, her face pink with shyness; she looked distractingly pretty at that moment.

"If you don't mind waiting a half hour I believe I could prepare something fit to eat," she announced timidly.

They applauded her enthusiastically and offered to help. She accepted Miss Taylor for an assistant in the kitchen, and Lillian Nugent opened the tiny cupboard and prepared to set the table for a dozen people from the hermit's scanty store of crockery.

Beth lighted a fire in the cracked old cookstove, Carl Bellew and Andy Smith carried firewood, and opened the cans of vegetables.

Bobby danced in and out reporting progress. "Baked potatoes! Hot biscuits—um! Bacon—mother, they're cooking bacon and eggs out there!"

They were doing all those things, while outside of the frail shelter a summer rain drummed on the shingles and made the fire and the coziness more desirable.

At last they sat down at two tables. They gave Beth a seat of honor, and no one told her of the dab of flour on her hair or the smudge of soot that became a beauty spot near her lively eye. With her flushed cheeks her ruffled brown hair, her pale blue sleeves pushed up above her rounded elbows, Beth Newton was radiant.

They were all so good to her, too! She smiled happily, too tired to eat. Her eyes met Carl Bellew's and something in the man's gaze brought a hot flush to her cheek. After that her eyes did not wander far from her plate.

As a delightful surprise Beth produced a steaming apple pudding with maple sirup, and in token of their gratitude Andy Smith hastily plucked a bunch of herbs from the rafters and solemnly crowned her with a wreath of catnip, the queen of cooks.

By the time the dishes were washed and put away the sun was shining outside. The invaders had restored the house to order and Carl Bellew had pinned a note on the table cover.

Inside of that envelope were folded crumpled banknotes of such large denomination that old Ned Blake would never cease to marvel over the accession of riches that made his declining days more comfortable.

They returned to the scene of the campfire, and all too soon the three motor cars arrived. Somehow Mrs. Bliss managed to smuggle Beth and Bobby into the same car with herself and Carl Bellew, and that night when she went to bed the girl assured herself that she had rounded out her perfect day.

A few days later the party had broken up and the picnic was forgotten by all save Beth Newton and Bobby—and, perhaps, Carl Bellew. His place was not very far away and he found many excuses for calling on the Bliss.

When kindly Mrs. Bliss realized that it was her little nursery governess whom Carl Bellew wanted to see, she remembered her own days of wooing, and entered wholeheartedly into matchmaking.

"Dear," said Carl Bellew one October day when he had received Beth's answer. "I've loved you from the beginning, but when I tasted your cooking—"

Beth's hand pressed his lips in silence. She looked up at her splendid, gallant lover.

"Ah, Carl," she murmured. "I am such a humble little thing—so unworthy of you! You might marry a princess—or a queen!"

Carl threw back his head and laughed. Then he gathered her closer in his arms.

"I am going to marry a queen," he protested, "the queen of cooks!"

Her Oversight.

"That last cook you sent me did not suit at all."

"What was the matter?"

"She couldn't cook."

"Oh, why didn't you say you wanted one that could cook?"

And No Insurance.

Bookkeeper—"The old man's getting to be quite an incendiary."

Cashier—"What's the answer?"

Bookkeeper—"He fired two more men today."

After Marriage.

"Tell me, Vanessa, does your music help you make your home happy?"

"Not much. A sonata is of little interest to a man when he wants a boiled dinner."

She Knew Father.

"All the world loves a lover, you know," said the young man.

"You'll find out your mistake when you speak to father," replied the sweet young thing.

Paw Knew the Answer.

Little Lemuel—"Say, paw, what is an underwriter?"

Paw—"An underwriter, son, is a woman who always adds a postscript to her letters."

COOKING TOUGH MEAT

NO BETTER WAY THAN BRAISING HAS BEEN DEvised.

Especially Should Fowl That Is Not as Tender as Could Be Wished Be Prepared in This Way—Some Kidney Dishes.

Braising is an excellent way of cooking rather tough meats, as the long, slow cooking softens the meat and yet all the nourishment is preserved in the gravy. A fowl that is tough should always be cooked in this way. Take a casserole just large enough to hold the fowl. Cover the bottom with slices of fat bacon, add thick slices of onion, carrots and turnips and put in the fowl. Cover the dish and let it cook on the top of the stove for 15 minutes. Then add a pint of hot water. Place in the oven. Let it simmer an hour or longer, according to the age and size of the fowl. Two hours will be needed for an old bird. Dish the bird. Put the vegetables around the dish and pour over it a gravy made from the stock.

Kidneys which may be bought for one, two or three cents apiece, never more, even in the city, make a cheap and delicious supper, luncheon or breakfast dish either grilled or stewed. To stew the kidneys scald, skin and cut them in halves, take out the small, hard piece and rub in seasoned flour. Heat a little dripping in small casserole, put in the kidneys and fry them brown. Take them out and keep warm on a plate. Chop a small onion, fry in the casserole until brown, add a little flour and brown. Add a teaspoonful of sharp sauce and one of tomato sauce or catchup. Pour in slowly as much water as required, stirring to keep smooth. Return the kidneys to the pan and simmer for about an hour. Skim off any scum and flavor with sherry. Kidneys that are left over from a supper dish are very good hashed and served on toast for breakfast. They should be rewarmed with a brown gravy.

Grilled kidneys may be grilled in their own fat, or they may be scalded, skinned and split and brushed with oil. They should be served on toast, either well seasoned or with a devil sauce.

Veal and ham pie, a very popular and inexpensive English dish, is made as follows:

One pound veal cutlet, four ounces bacon or ham, two hard-boiled eggs, pastry, seasoned flour and mushrooms.

Make a seasoned flour by mixing one tablespoonful of flour, one teaspoonful of salt, one-half teaspoonful of pepper; add a little grated rind of a lemon and a pinch of cayenne. Cut the meat into medium pieces, rub in the flour and put into a deep pie or baking dish. Peel the mushrooms and put them in the dish. Pour in enough water to three-quarters fill the dish and cover the top of the dish over with pie crust. Make a hole in the center of the pastry. Put it into the oven and bake for an hour.

Wanted Football Results.

The New York Evening Post relates a story told in England of Captain von Muller, late of the Emden. One night while the British cruiser Yarmouth was escorting a merchant ship out of Singapore, the wireless operator received calls from a ship some distance away. He answered them, and to his surprise found that he was in communication with the German cruiser Emden. The transmitted message was as follows: "Captain von Muller and the wardroom mess send their compliments and would be obliged if the Yarmouth would let them have the result of the inter-regimental rugby football match." The result was duly given, together with an intimation that it would not be very long before the captain of the Emden and the wardroom mess would have the opportunity of a personal attendance at all field and track events in England.

Devil's Nickname.

Why the term "Old Scratch" means the devil is not plain until you examine the Swedish, where the word skrat means devil. In the middle high German the word scratche, scratche means fiend or ghost.

Really Tailor's Own Fault.

One reason why some men can't pay the tailor is that they try to follow his directions as to the different clothes required for different hours of the day and haven't time to earn any money.

Nervous Emotional Dizzy Depressed ?

Mrs. Addie Curtsinger, of Cedar St., Cairo, Ill., wrote Doctor Pierce as follows:

"I send 31 cents for your 'Common Sense Medical Adviser' for my daughter who has recently married and I know the book will be of much value to her. I have read and used for 25 years the valuable treatments contained in the 'Medical Adviser' and have taken many bottles of Dr. Pierce's Favorite Prescription, and have been restored to health each time I used it. It is a great remedy for women as a strength builder, fine for the nerves and general health."

WOMEN who are restless, with constant change of position, "fidgetiness," who are abnormally excitable or who experience fainting or dizzy spells, or nervous headache and wakefulness are usually sufferers from the weaknesses of their sex.

DR. PIERCE'S Favorite Prescription

is the soothing, cordial and womanly tonic that brings about an invigorating calm to the nervous system. Overcomes the weakness and the dragging pains which resemble the pains of rheumatism. Thousands of women in the past forty years can bear witness to its benefits.

Your dealer in medicines sells it in liquid or sugar-coated tablet form; or you can send 50 one-cent stamps for a trial box of Dr. Pierce's Favorite Prescription tablets. Address Dr. V. M. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets Regulate and Invigorate Stomach, Liver and Bowels, Sugar-Coated Tiny Granules.

Want Market Commission.

California women are anxious to establish a national marketing commission as suggested by the United States delegate to the International Institute of Agriculture in Rome. According to this plan, the president of the United States will appoint the national president of an influential chamber of marketing commission, consisting of the commerce, the mayor of three of the largest cities in the United States, three members of the leading mail order and department stores, a leading railroad man, a parcel post man, a leading banker, a leading workman, two congressmen, a senator, making fourteen in all, and in addition to this fifteen farmers from various sections of the United States, making twenty-nine members of the commission. There would also be state commissions, appointed by the governors, and so on down to township commissions. There would be places in each town and city for sales, and farm produce would be put on sale at different hours in the week.

It Cures While You Walk.

Allen's Foot-Ease is a certain cure for hot, sweating, callous, and swollen, aching feet. Sold by all Druggists. Price 25c. Don't accept any substitute. Trial package FREE. Address Allen S. Olmsted, Le Roy, N. Y.—Adv.

Poverty Does It.

"Thomas Nelson Page, since he married a rich wife, hasn't written a line. Kipling practically stopped writing as soon as he accumulated a fortune. Sir James M. Barrie, once his plays made him wealthy, ceased grinding out anything except a one-act trifle per annum. It's the same thing with Hall Caine, too."

The speaker was Bryant Cullen, the English critic, editor and publishers' reader. He resumed:

"Lack of cash—is the one great cause of progress. The world moves—because, most likely, it can't pay the rent."

Daily Thought.

Never speak ill of a person unless you are sure of your fact! and, even if you could swear to it, ask yourself: "Why do I make it known?"—K. Lavater.

Mysteries of Rheumatism Practically Solved

Action in the Tissues of a Remarkable Antidote

S. S. S. is a Regular Wizard in Driving Out Rheumatism.

Rheumatism is often the effect of some other blood affliction that has left its impress in the joints, muscles and mucous coverings of the body. It works into the tissue cells, those tiny, little bodies in which nutrition goes on. And it is here that a most remarkable medicine known as S. S. S. does its most active and most effective work.

Its action is marvelous. Bed-ridden rheumatics get on their feet as if by magic. That cold, clammy sensation that made you hug a red hot stove is gone in a twinkling. That excruciating pain that made a feather lay as heavy as a ton of coal on the skin is gone. You get up and dance with glee.

Your rheumatism is gone—absolutely! It is an actual logical fact, that Swift's Cure Specific flushes your blood, gives your entire blood circulation a fine thorough bath. It just naturally and in a twinkling irrigates every atom in your body. It rushes into every cell, causes every bone, muscle, ligament, tendon, mucous surface and every nerve to thrill with freedom, with health, with new-found springiness.

And best of all, S. S. S. though a powerful searching, overwhelming enemy to pain and the causes of rheumatism is as pure as the dew on a peach blossom, as powerful as the heroic works of nature, as searching as the premonitory demand of the most exact science.

Ask for and insist upon getting S. S. S. the world's cure for rheumatism. For private, personal advice on stubborn chronic rheumatism write at once to the Swift Specific Co., 203 Swift Building, Atlanta, Ga. Their medical department is famous on all blood diseases, and is equipped to make personal blood tests, approved by the highest medical authorities. Get a bottle of S. S. S. today. Then away goes rheumatism for all time.

W. L. DOUGLAS

MEN'S \$2.50 \$3 \$3.50 \$4.00 \$4.50 \$5 \$5.50 SHOES
WOMEN'S \$2.00 \$2.50 \$3.00 \$3.50 & \$4.00 SHOES
BOYS' \$1.75 \$2 \$2.50 \$3.00 MISSES' \$2.00 & \$2.50

YOU CAN SAVE MONEY BY WEARING W. L. DOUGLAS SHOES

W. L. Douglas shoes are made of the best domestic and imported leathers, on the latest models, carefully constructed by the most expert last and pattern makers in this country. No other make of equal prices, can compete with W. L. Douglas shoes for style, workmanship and quality. As comfortable, easy walking shoes they are unsurpassed.

The \$3.00, \$3.50 and \$4.00 shoes will give as good service as other makes costing \$4.00 to \$5.00. The \$4.50, \$5.00 and \$5.50 shoes compare favorably with other makes costing \$6.00 to \$8.00. There are many men and women wear Douglas shoes and they will tell Douglas shoes cannot be excelled for value.

When buying W. L. Douglas shoes look for his NAME AND PRICE stamped on the bottom. Shoes thus stamped are guaranteed to be the real W. L. Douglas shoes. For 32 years W. L. Douglas has guaranteed their value and protected the wearer against cheap imitations by having his NAME AND PRICE stamped on the bottom before they leave the factory. Do not be persuaded to take some other make claimed to be as good. You are paying your money and are entitled to the best. If your dealer cannot supply you, write for Illustrated Catalog showing how to order by mail.

W. L. Douglas, 210 Sparks St., Brockton, Mass.

If you could visit the W. L. Douglas factory at Brockton, Mass., and see how carefully the shoes are made, and the high grade leathers used, you would then understand why they look and fit better, hold their shape and wear longer than other makes for the price.

W. L. Douglas shoes are sold through 80 stores in the large cities and shoe dealers everywhere.

Children of Orchardists Raise Pigs

The pig club work of the Northwest is meeting a very enthusiastic response, especially in the States of Oregon, Washington, and Idaho. For some time the Hood River country has been noted for its extensive orchards, but there is now an embryonic industry starting, which may in time induce a wider diversification in crops. Hog raising is being introduced by children, the sons and daughters of the orchardists. Recently a carload of brood sows was sent from the Portland Union Stockyards to the Hood River Valley for distribution among the children. These are furnished on credit to those who agree to raise them in accordance with the prescribed instructions and to make reports of their efforts. The sows were selected from pure-bred stock, of the breed designated by the applicants, and have been bred to boars that won prizes at the big agricultural fairs last fall. The hogs have been immunized against hog cholera and are good, healthy animals.

The boys and girls will keep an accurate record of all costs in connection with their work, and as the little pigs arrive the expenses of keeping the mother and her brood are to be carefully enumerated. The children will pay for the sow by selling the pigs, the stockyards charging 6 per cent interest on the selling price of the sow. This places the transaction on a strictly business basis. The school officials in each county will have special supervision of the work. Among the prizes to be awarded in each State to those who have the best reports will be free scholarships for the State universities.

Inca Relics.
Before taking leave of Cuzco, Peru, we went to see the very interesting collection of Inca relics in the private museum of a Peruvian doctor who has devoted many years of his life to Inca research. Ranged round the walls were mummies which had been taken from rock tombs. All had been buried in a sitting posture, and judging by the horrible expression of agony on the parchment skin I should imagine that some of them—prisoners of war, I was told—had been entombed alive. The horror of those mummified faces and the awful contortions of the skeletons haunted me for a long time, nor shall I ever forget the sight.

One or two of the skulls bore evidence of skillful surgery, star shaped pieces of bone having been cleverly fitted in to repair damage done by the star shaped stone weapons of the period. I did not measure those I saw in the museum, but one of the aforesaid stone weapons which we brought back to England from Cuzco measured four inches from point to point across the top—a truly formidable club. —Wide World Magazine.

Fighting the Rat.
The greatest enemy of man is man and next to him perhaps the rat. He is incredibly cunning. He can live in any climate. He sails the sea in ships. He forages in the open fields or burrows through walls and intrudes into the home. Man himself is no harder than the rat, and in the matching of wits against wits the rat has up to this time been the victor. He augments every famine in the world. If the depredations of rats could be prevented the cost of living certainly would be lowered. Active as he is in famine, the rat's most spectacular co-operation with death lies in his copartnership with pestilence. The study of method for the extermination of rats should be financed on some basis which will make it permanent. It is a fight which has not as yet been adequately waged notwithstanding the fine abilities of the doctors who are fighting the rat in combating bubonic plague. The business needs specialists.—Farm and Fire-side.

War and Aeroplanes.
The art of war has been robbed by the aeroplane of the element of surprise which afforded Napoleon dramatic opportunity for the display of his genius. His object was to discover the weak spot in the enemy's lines and, having discovered it, to hurl upon it all the forces at his command. His success depended upon the speed and sureness with which the great blow could be struck. A premature revelation would have spoiled all. But a coup of the sort is no longer possible, for a maneuver on the one side is met instantly by a maneuver on the other. War now consists in a series of parallel movements; its art has changed. It would be scarcely an exaggeration to say that it does not exist. The two armies turn about each other like boxers in the preliminary phases of a fight. They pivot clumsily, to catch each other at a disadvantage, and that is practically all the art of it.—London Times.

Local and Personal

Fountain Pens for graduates—Smith.
Claud Townsend went to Hollister Tuesday to work off a little of his surplus avoirdupois on a ranch.

Mrs. A. W. Robertson was down from Oakland yesterday to get more of her household goods shipped to her home.

Campbell was represented in the Coast Counties Tennis Tournament at Gilroy by J. D. Blaine and D. H. Cramer.

Fine pasture until July 1st at Hyde & Co.'s dry ground. \$2.00 per head, cows or horses. See E. C. Merrill, or phone Campbell 13L.

The W. C. T. U. will meet with the President, Mrs. Belle Righter, June 16th, at which time the election of officers will be held.

W. C. Bohnett returned Monday from a week's visit to his ranch in Lake County. Mr. Bohnett is very enthusiastic over the prospects of that region. Mrs. Bohnett returned from her sight-seeing at the Fair with her husband.

Miss Marjorie Bryant of Omaha was the guest of the Chas. Townsend family last week. Miss Gladys accompanied Miss Bryant to the Jewel City Friday for the week. Mr. Townsend and the family motored to the Fair Monday for the day.

A trip to Mt. Hamilton is being planned for Saturday, June 5. The E. C. Merrill truck, capacity 35 passengers, will leave Campbell at 12:30 o'clock. The reasonable round trip rate of \$1.35 will be charged. Make your seat reservations with Ruth E. Hoag, conductor. Phone Campbell 8Y.

Fred H. Brown, a brother of "Peanuts" Brown, and a former student of the C. U. H. S., has been awarded the scholarship offered by the San Francisco Institute of Art to the student in the high schools of California who submitted the most original and most cleverly executed drawing. One hundred and twenty schools were represented in the contest. Mr. Brown is a senior this year at San Mateo.

The J. C. Ainsley Packing Co. will be pleased to receive applications for work from women helpers as early as possible, for the season commencing early in July.

Those in town having rooms or other accommodations for rent, are invited to leave particulars at the office of the Company.

Explanation of Bond Notice

The school lot mentioned in the school bond election notice means the four Curtis lots directly east of the grammar school house shed. The price is \$900 for the four lots or \$225 apiece. They are large lots. The four together make up almost one acre. The idea spoken of some time ago about buying a large number of other lots has been dropped. This land will just make up for the space that the new building will cover and give us just as much play ground as we now have. The school gardens will be put on the new ground. The horse shed will be moved to the farthest end of the lots.

We are very fortunate in getting a contract of sale on these lots for such a reasonable figure. One of the trustees desires to purchase them if the district does not see its opportunity. It is needless to say we will never get another chance at the present price.

The new building is contemplated being built either back of the present building, and thus be closer to town, or beside it. The money spent in moving the old building will be saved, and we will have a better building if our present building does not have to go through the strain of moving. It should be understood that we need a place to hold school until the other building is finished, which will be, at best, about six months from now. Then it is planned to turn the present building into up-to-date manual training and domestic science rooms for BOTH schools. This will relieve the crowded conditions in the high school to a great extent. It will be possible for them to turn their manual training rooms that they now have into class rooms. This can be done at very little expense with their school carpenter directing the young men in this work, and at the same time giving the boys practicable experience in carpentry.

The new building in mind is somewhat on the plan of the Hester school in San Jose or the Sunnyvale school, but of course, it will be built strictly to our own needs. It is planned to build six rooms and an assembly hall which will hold from three to five hundred people. The plan and picture of the building are in Mr. Blaine's window.
It has been remarked that all this cannot be done on \$25,000. The trustees have planned long and hard on this proposition and they firmly believe, in view of the facts that they will not have to spend any money in moving the present building and are able to purchase the land so cheaply, that everything will come out very satisfactorily as planned.
Now is your chance to help carry the bonds.
MRS. BERTHA PAGE.

May Pole Dance

The school yard was well filled with spectators Tuesday afternoon when the children wound their May poles. The three lower rooms were represented, one pole being in white and lavender and the girls having lavender sashes and flowers, another in yellow and white, and the smallest tots in pink and white.

The drill was very pretty and well executed, especially in view of the fact that this is the first attempt of anything of that nature here.

Maypole drills, outdoor dances and fetes of all kinds are being introduced and encouraged in most up-to-date schools, and our teachers are to be complimented on their efforts and success.

The school gardens, which the Agricultural Class have been caring for, were judged yesterday, and Irene Sawyer's given the prize by the judge. The prize was a two pound box of candy which Prof. Kammerer had offered for the best garden. Several of the visitors were rather of the opinion that Helen Denbigh's garden, planted by George Middleton was entitled to the prize. In fact all of the gardens are worthy of commendation.

The sewing classes had some very pretty, well made under-garments on display in Miss Clark's room.
Both of these courses are new this year and show what could be accomplished with adequate equipment and sufficient room.

Benefit Entertainment Well Patronized

Those who had the privilege of hearing Messrs. Rudolph Fritsch, violinist, and Earl House, reader, of Stanford, Tuesday evening in their entertainment for the Belgian Relief Fund, were highly pleased with their work.

Mr. Fritsch is an artist of unusual skill upon his chosen instrument and his selections were all of high order. He is a teacher of violin in Palo Alto, and is taking work at the University.

Mr. House visited Campbell last year with the Stanford Glee Club and his numbers were well received upon both occasions. His rendition of both classical and humorous selections was unusually clever, but the latter were repeatedly encored.

Should these gentlemen ever make a return visit to Campbell they would undoubtedly be greeted with a full house.
The silver offering taken up at the close of the entertainment amounted to over \$25, and was very gratifying to the young men as they had been given a rather discouraging outlook.

Glee Club Concert

The Glee Club of the C. U. H. S. gave a very successful concert last Friday evening at the high school.

The first half of the program consisted of old time folk and patriotic songs, sung as solos duets and quartets. The "hit" of that part of the entertainment was "Dixie," sung by Gordon Mapes in his peculiar style.

The second half was selections from the Bohemian Girl, including choruses, and character parts being sung by groups.

May Ellison acted as piano accompanist and Cecil Ellison played the violin.

Grammar School Graduation

The class of 1915 of the Campbell Grammar School will graduate Thursday night, June 10th, in the High School assembly hall. The following program will be given.

Invocation.....Rev. Geo. E. Atkinson
March.....Edwyna Page
Cantata.....6th, 7th, 8th Grades
Piano Solo.....Lucile Strong
President's Remarks.....Wm. Lloyd
Address.....Mr. L. D. Bohnett
Class Song.....Class
Class Will.....Ruth Stewart
Class Prophecy.....Irene Sawyer
Presentation of Diplomas.....Prin. W. B. Kammerer
Benediction.....Rev. W. H. Lloyd

Mysterious Chimney Swift

Much has been learned about bird migration but much yet remains to be learned, and the following is one of the most curious and interesting of the unsolved problems. The chimney-swift is one of the most abundant and best-known birds of eastern United States. With troops of fledglings catching their winged prey as they go, and lodging by night in tall chimneys, the flocks drift slowly, south joining with other bands, until on the northern coast of the Gulf of Mexico they become an innumerable host. Then they disappear. Did they drop into the water or hibernate in the mud, as was believed of old, their obliteration could not be more complete. In the last week in March a joyful twittering far overhead announces their return to the Gulf coast, but their biding place during the intervening five months is still the swift's secret.

NOTICE--School Bond Election Notice

Notice is hereby given to the electors of Campbell School District, in the County of Santa Clara, and State of California, that, in accordance with the provisions of the Political Code of the State of California, as set forth in Section 1880, to and including Section 1888 of said Code, an election will be held on the 19th day of June, A. D. 1915, at the Public School House in said Campbell School District, at which time will be submitted to the electors of said District the question of issuing the bonds of the District and selling the same, for the purpose of raising money for purchasing a school lot, for building a new school building, for making alterations to the present school building, for supplying both said school buildings with furniture and necessary apparatus, and for improving the school grounds.

The polls will be opened and the election held at the school house in said Campbell School District, on the 19th day of June, 1915, and the polls will be open from 8 o'clock A. M. of said day until 6 o'clock P. M. of said day. A. J. Farley will act as Inspector and O. E. Atkinson and Leona Billion will act as Judges of said election to conduct the same.

The amount of bonds to be issued is Twenty-five Thousand dollars, of the denomination of one thousand dollars each, and to bear interest at the rate of 5% per cent per annum, payable semi-annually.

Said bonds are to be numbered consecutively 1 to 25, inclusive, and are to run, mature and be payable as follows, to-wit:

Bonds numbers 1 and 2, one year from date of issuance.
Bonds numbers 3 and 4, two years from date of issuance.
Bonds numbers 5 and 6, three years from date of issuance.
Bonds numbers 7 and 8, four years from date of issuance.
Bonds numbers 9 and 10, five years from date of issuance.
Bonds numbers 11 and 12, six years from date of issuance.
Bonds numbers 13 and 14, seven years from date of issuance.
Bonds numbers 15 and 16, eight years from date of issuance.
Bonds numbers 17 and 18, nine years from date of issuance.
Bonds numbers 19 and 20, ten years from date of issuance.
Bonds numbers 21 and 22, eleven years from date of issuance.
Bonds numbers 23 and 24, twelve years from date of issuance.
Bond number 25, thirteen years from date of issuance.
Said election will be held in conformity with the provisions of the Political Code of California governing such elections.
Dated May 26, 1915.

MRS. B. P. PAGE,
C. BERRY,
JOHN D. BLAINE,
Board of Trustees of Campbell School District.

What's a College Vacation?---It's a Chance To Work

If anyone repeats the ancient slander that the college student is afraid of going to work, just tell him he doesn't know what he's talking about.

Here's a bit of evidence as to how the students of the University of California use the "vacation" not loafing but to earn money for the next year's college.

One fraternity, chosen at random from among the oldest and most prosperous at Berkeley, was asked how its members are spending their vacation. This was the answer:

Two are herding sheep on a mountain-side six thousand feet above sea-level; two are working in a field party of the United States Geological Survey; two are employed in clerical work; one is in the country collecting farm-production statistics for a State bureau; one is working in a bank; one is soliciting life insurance—he has spent several summers at this with great success; two have been given jobs at editorial work; one is working in an advertising business; one is a chauffeur; one is playing for dancing at a summer resort; one is in Nevada as a scientific collector, gathering fossils; one is studying stenography; one is enrolled for the United States Army's summer camp for military training for college students; one is helping run a combined harvester, four are at work in fruit orchards or on cattle ranches; of five others who graduated this month or left college to go to work, four already have jobs in the field for which they have prepared as their life-career—one in marine engineering construction, one in fruit-growing, and two in the importing business, while the fifth is going East for graduate study.

That is to say, of the thirty-two young men who were members of this particular fraternity during the University year just over, only seven are using the vacation as vacation; (and most of those seven are only freshmen.)

What is true of this particular fraternity is not exceptional, but typical of all the rest of the forty-seven fraternities and house-clubs at the University of California.

The members of fraternities at Berkeley are shown by the official records to be better in scholarship than the students who do not belong to fraternities. And here is evidence that they are no more afraid of hard work getting a living than anybody else, and like the vast majority of all the students at Berkeley, in the habit of spending their vacations earning money to help put themselves through college.

The Berkeley student knows that having no money to go to college with is no excuse for missing the precious opportunity of getting a college education.

The I. O. O. F. degree team of the local lodge conferred the third degree on a member of the Cupertino Lodge last evening. Refreshments were served after the work.

For Sale: Belgian hare and Flemish Giant does for breeding purposes. Flemish Giant at stud. Prices reasonable.

Pure bred Rhode Island Red Cockrels and eggs for hatching.

JOHN SPENCER,
Campbell R. 10, Sunnyside ave.

NOTICE TO CREDITORS

Estate of Stella M. Parso, Deceased.
Notice is hereby given by the undersigned administrator of the estate of Stella M. Parso, deceased, to the creditors of and all persons having claims against the said deceased, to exhibit the same, with the necessary vouchers, within four months after the first publication of this Notice, to the said administrator at the office of L. D. Bohnett, Rooms 313-314 Bank of San Jose Building, in the City of San Jose, County of Santa Clara, State of California, where all business connected with said estate will be transacted.
San Jose, this 3rd day of June, A. D. 1915.
Geo. L. Parso,
Administrator of the estate of Stella M. Parso,
L. D. Bohnett, Deceased.
Attorney for said Administrator.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system; thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
Address: F. J. CHENEY & CO., Toledo, Ohio.
Sold by Druggists, 75c.
Take Hall's Family Pills for constipation.

Methodist Church Notes

On account of the absence of the pastor Wednesday evening, the meeting of the official board was postponed to Monday evening at 7:30.

Mr. Lloyd went to the Dry Convention at Fresno this week to help in planning the dry campaign for 1916. He will speak Sunday evening concerning the convention and its work.

Miss Ethyl Simpson is the leader for the Sunday evening devotional meeting of the Epworth League. The spirit of earnestness seems to be growing among our leaguers and the meetings are correspondingly helpful to all who attend.

Our third quarterly communion service will be held Sunday morning, when we hope to see every member present who is able to come. Will any persons having church letters to present please have them in the hands of the pastor before the Sunday morning service if possible.

There are already indications of a quickening interest in the Woman's Foreign Missionary Society among the ladies of the church. We hope to see this organization within a few months as flourishing a condition as the other societies of the church.
